

# **Trails and Greenways Committee**

The Town Council of Grant-Valkaria created the Trails and Greenways Committee in the Fall of 2013. The purpose of the Trails and Greenways Committee is to investigate and recommend to the Town Council plans for a connected non-motorized trail and greenway systems throughout the town with connectivity to trails in other jurisdictions. The volunteer members are appointed by the Town Council. The town also maintains a voting member on the Bicycle/Pedestrian and Trails Advisory Committee of the [Space Coast TPO](#). The committee developed a comprehensive trail plan and

worked with the [Town of Malabar](#)'s Trails and Greenways Committee to identify potential connection points with their trail system and the Brevard County [Al Tuttle Trail](#) which is planned to extend south to the [St. Sebastian River Preserve State Park](#). They also approached the Brevard County [Environmentally Endangered Lands Program](#) for cooperation in managing and developing their property within the town borders. The committee encouraged the town administrator to submit shovel ready existing plans for a grant to extend the multi-use paved path on Valkaria Road to the park entrance. This project is scheduled for construction in 2017. In

2014, the committee wrote a grant application to the State Recreational Trails Program for \$67,000 to build the Town Connector Trail between Corey Road and Mulberry Road. This natural surface trail will connect the Grant area to town hall,

the park, and the [trailhead](#), as well as providing a link to continue south with a trail system for walking, running, bicycle and equestrian use. The trail will include educational opportunities. The town was awarded the grant in 2015, with construction projected to start in 2017. The Trails and Greenway Committee has also received

support from the [Grant-Valkaria Community Association](#).
